

Documentation:Eduline Pro WordPress Theme

Install **Eduline Pro** WordPress Theme within a few minutes.

Why Choose Us?

Mauris at varius orci. Vestibulum interdum felis ou nisl pulvinar, quis ultricies nibh. Sed ultricies ante vitae laaoot sagittis. In pellentesque viverra purus.

Eduline Pro is a simple, clean, responsive and user-friendly education WordPress theme specially designed for university, school, college or other educational institutions. The Eduline theme has powerful theme customization options such as custom header settings, logo, custom menu, social icons, featured slider, courses and more. It makes your website more engaging and informative.

Required plugins:-

1. Learnpress - Wordpress LMS Plugins(<https://wordpress.org/plugins/learnpress/>)
2. Contact Form 7(<https://wordpress.org/plugins/contact-form-7/>)

3. Newsletter Plugins(<https://wordpress.org/plugins/newsletter/>)
4. One Click Demo Import (<https://wordpress.org/plugins/one-click-demo-import/>)

Eduline Pro documentation: How to start?

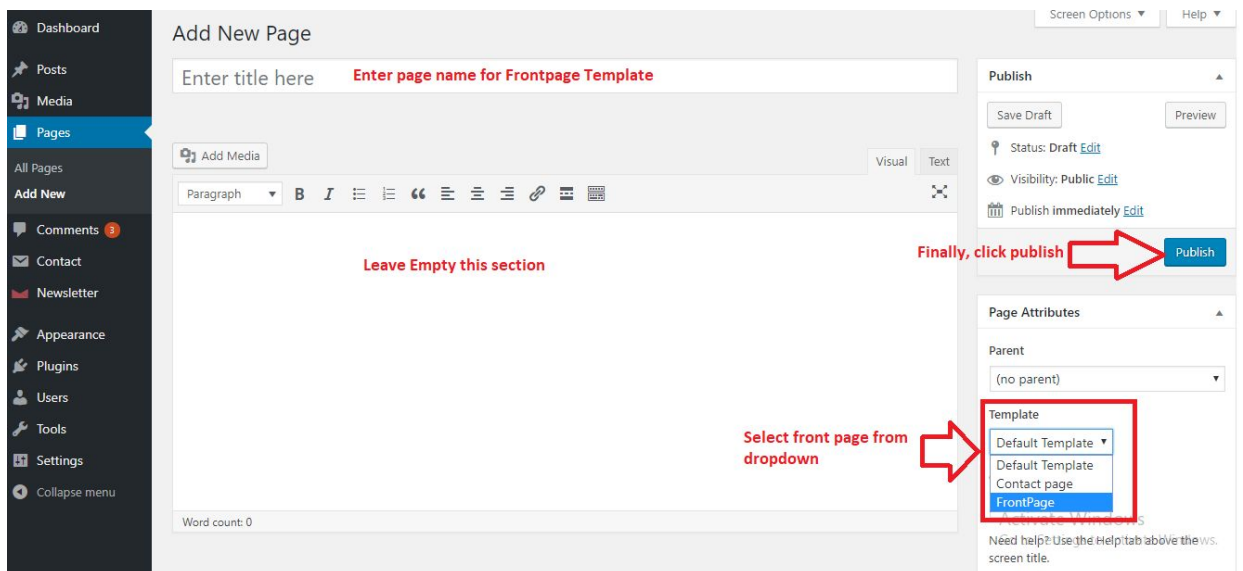

This documentation will show you step by step how to complete the basic configuration of **Eduline Pro**. It is important that you follow these steps carefully because some steps build up on each other and that will help you a great deal to set up your website properly:

1. [How to set up a static front page in WordPress?](#)
2. [How to upload, install and activate Eduline Pro?](#)
3. [What is page and how to create it?](#)
4. [What is category and how to create it?](#)
5. [How to create menus?](#)
6. [How & where to place widgets on your website?](#)
7. [How to create posts?](#)
8. [How to add logo and site title/tagline?](#)
9. [How to adjust options & layout?](#)

1 – How to set up a static front page in WordPress?

In order to create a **Eduline Pro** like front page like shown in the theme demos for [Eduline Pro](#),

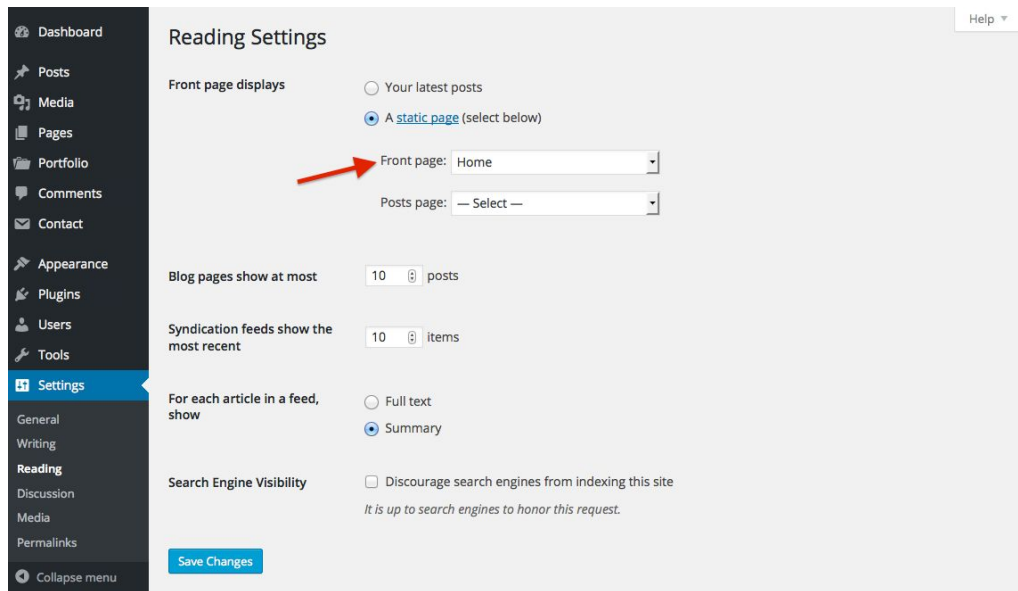

- First to create new page named Home(or else) .
- Select Homepage template for your just newly created page under Page Attributes on the right side.
- Finally, publish this page.

The screenshot shows the WordPress 'Add New Page' editor interface. The main content area contains the text 'Leave Empty this section'. The right sidebar is open to the 'Page Attributes' section, where the 'template' dropdown menu is expanded, and 'FrontPage' is selected. A red arrow points to the 'Publish' button in the top right corner, with the text 'Finally, click publish' next to it. Another red arrow points to the 'FrontPage' option in the template dropdown, with the text 'Select front page from dropdown' next to it. The top of the editor shows the title field with the placeholder text 'Enter page name for Frontpage Template'.

- Second, go to **Settings => Reading** in your WordPress dashboard.
- Select A static page and select your just created new page Home as *Front page*.

Note:- Don't forget to save your changes

2 – How to upload, install and activate Eduline Pro?

From WordPress Dashboard

- Login to Wordpress admin panel
- Go to > **Appearance > Themes**
- Click in **add New >Upload eduline-pro.zip file > Install Now**
- **Activate the theme**

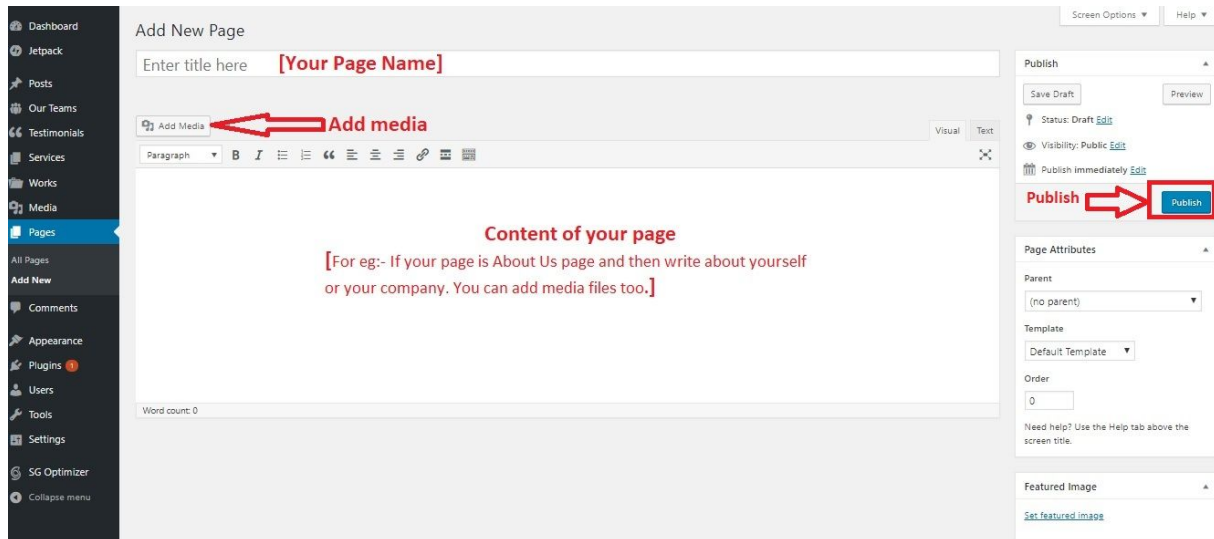

After installing the theme, now you can customize your website as per your preference.

3 –What is page and how to create it?

Pages are static and are not listed by date. Pages do not use tags or categories. An about page is the classic example. Pages can be displayed in the sidebar using the Pages widget, and some themes display pages in the navigation at the top of the site.

-To create page

- Go to dashboard
- Click in **Pages > Add New > Follow instructions as below**

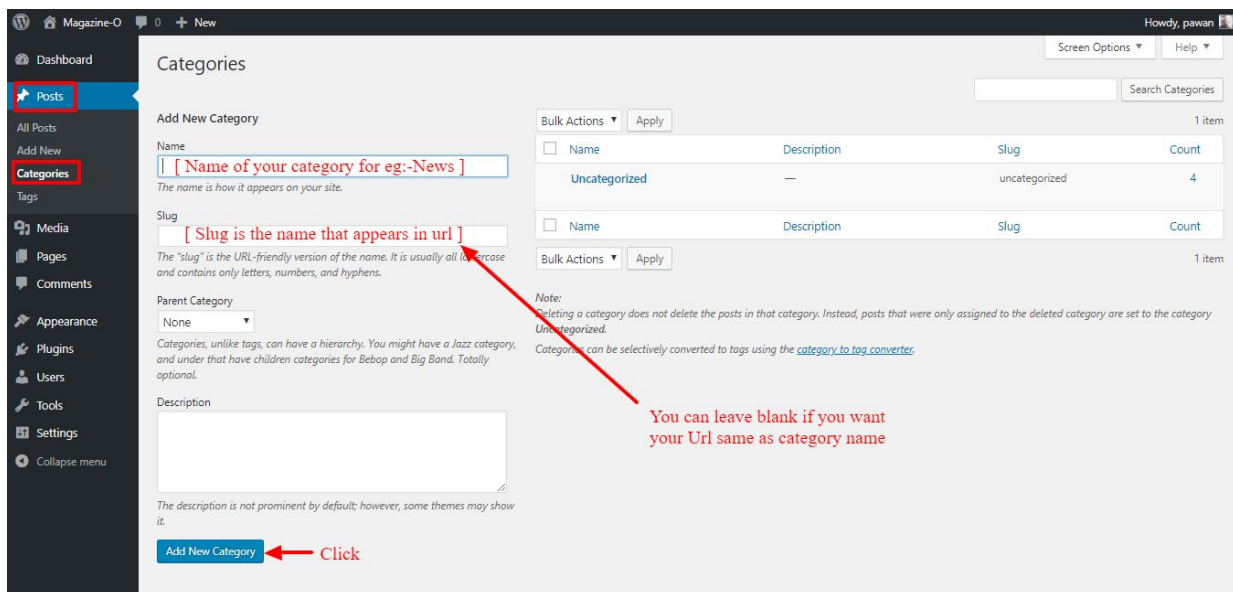

- After adding all content, you can publish your page and create necessary pages by same method.

4 – What is category and how to create it?

Categories provide a helpful way to group related posts together, and to quickly tell readers what a post is about. Categories also make it easier for people to find your content. Categories are similar to, but broader than, tags.

How to create categories

- Go to dashboard
- Click in **Posts > Categories**

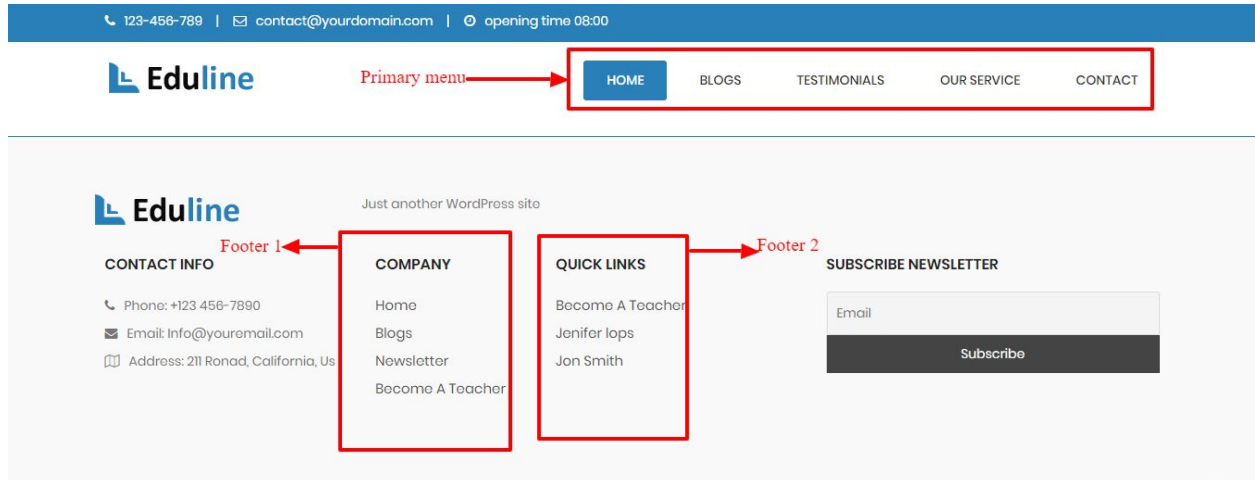

- You can put your own slug too, most of the time it is left blank which means name of the category itself will be its slug.

- [For eg. yoursite.com/category/category_name]
- You can put description if you want.
- Now after adding category, your category will appear in right side of the post page.
- You can add more categories in same manner.

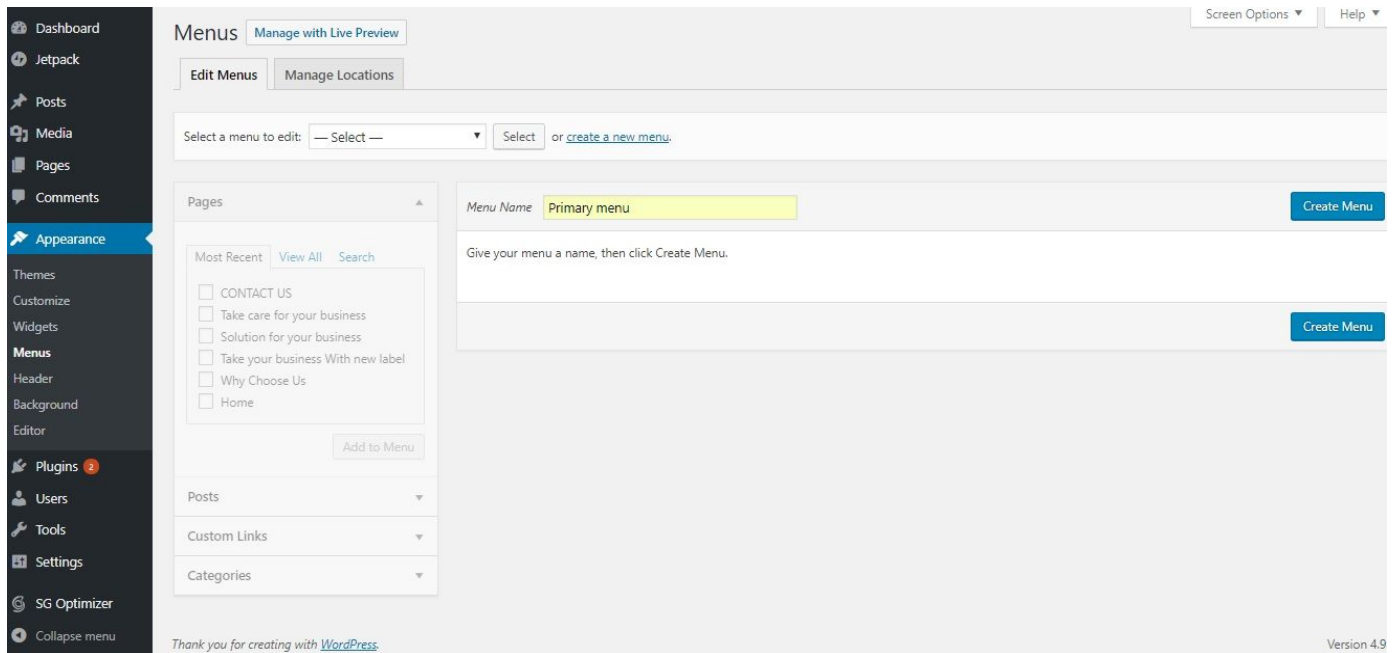

5 – How to create menus?

This theme comes with three menu locations. **Primary**, **Footer 1** and **Footer 2** menu.

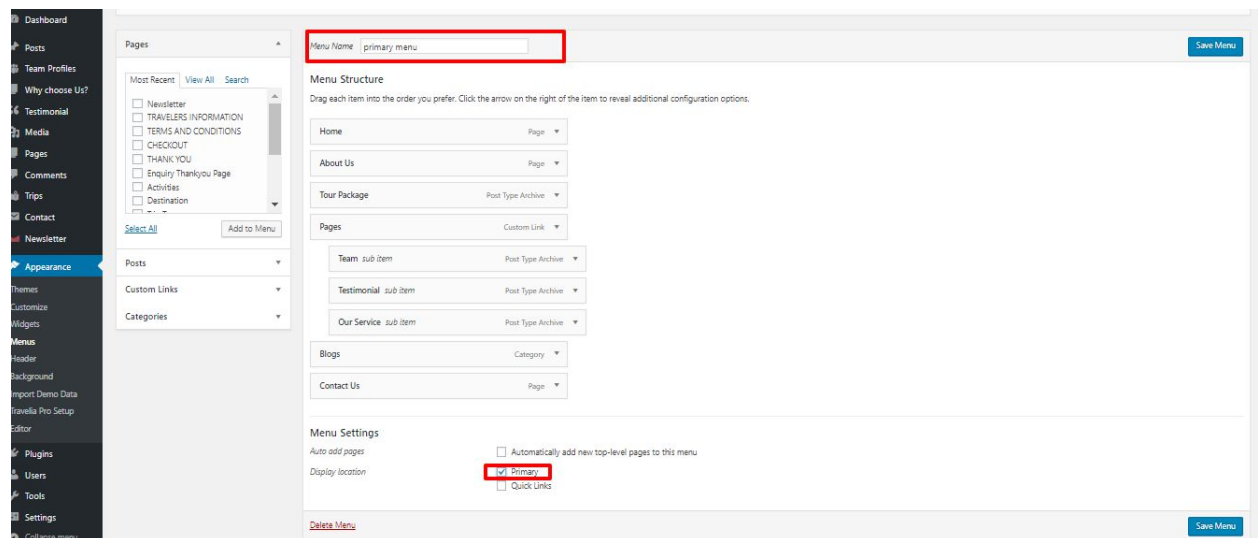

You can create menus in **two ways**.

- **Appearance=>Customize=>Menus=>Create New Menu**
- **Appearance => Menu**(We **RECOMMENDED** this Option for creating menus.)

- Create **New Menu** [You need to create only one menu]
- Give name of the menu [For eg. Primary Menu] > **Create Menu**

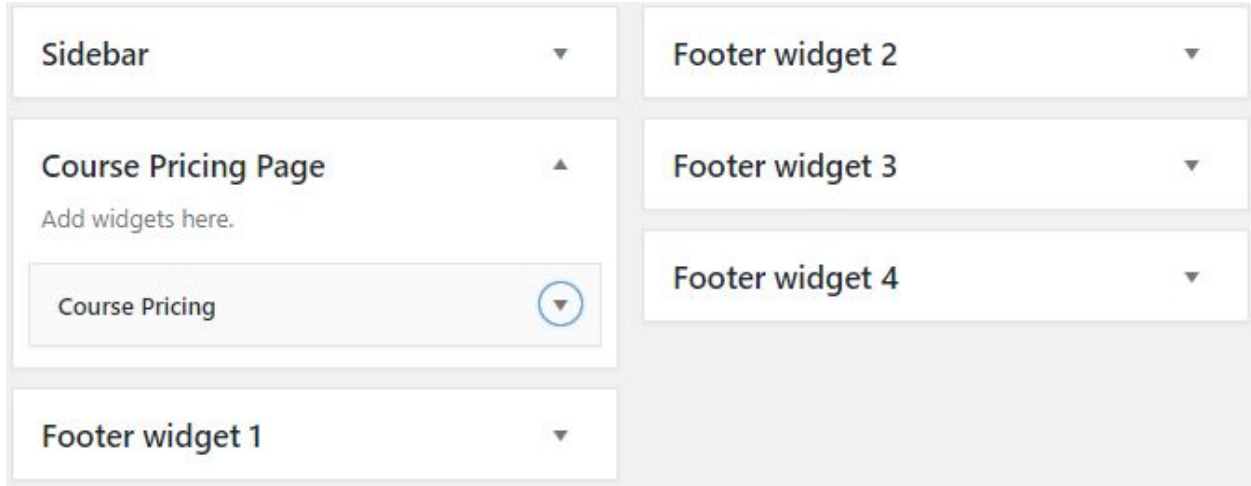

6 - How & where to place widgets on your website?

In this important step, we will show you where and how to place widgets. You can place widgets either through two ways:-

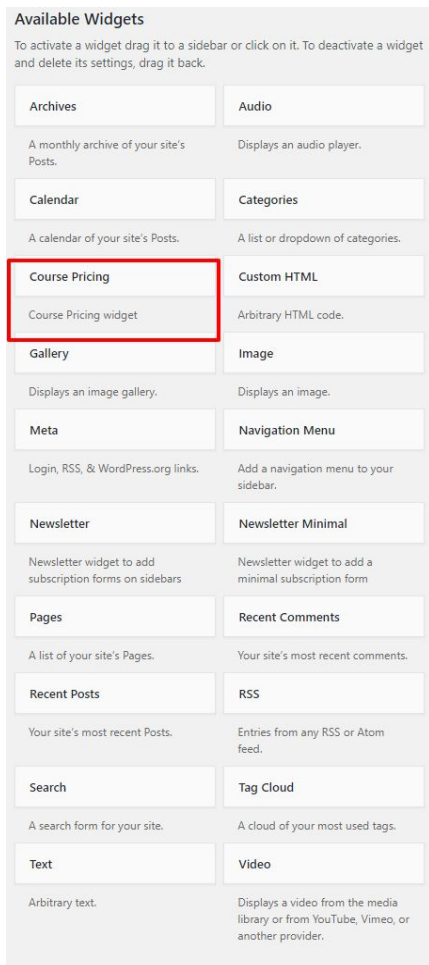

- **Appearance => Widgets**
- **Appearance => Customize => Widgets**

Note:- Widgets can be placed simply via drag and drop, so just pull your favored widget to the widget area you like.

Our registered widgets:-

Here you can see the **Available widgets** areas of **EduLine Pro** WordPress Theme.

7 - How to create posts?

Now after all set, you can start writing your post. Follow these steps

- Go to dashboard > **Posts** > **Add New**

Word count: 0

Choose categories

Include 2/3 tags

Upload Featured Image

- Finally, click in publish Button. You can preview your post before actually publish it just make sure everything is ok. If you have not completed writing your post then you can save it as draft.

8- How to add logo and site title/tagline?

With **EduLine Pro**, you may customize your logo and site title/tagline in many different ways. To upload a logo and display/hide the site title and tagline, you can navigate to **Appearance** => **Customize** => **General Settings** => **Site Identity** and apply your changes based on your personal requirements.

9- How to adjust options & layout?

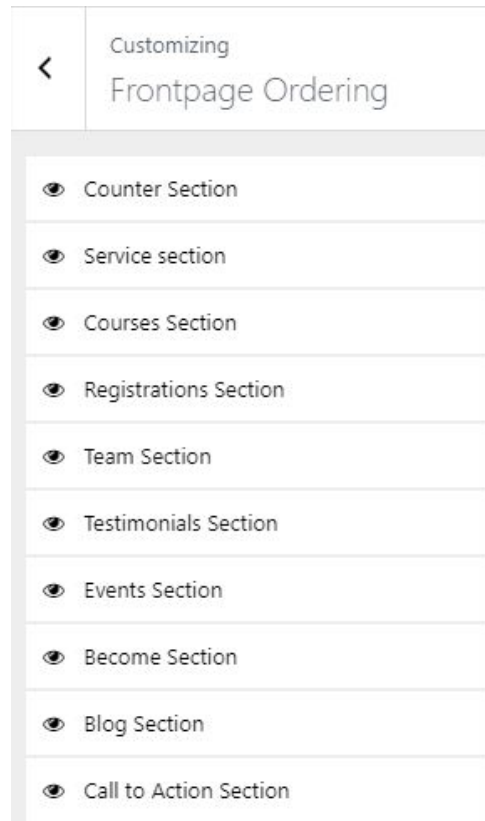

After you have carefully followed the previous steps, you have successfully completed the basic configuration of the theme. You can now further customize and manage the appearance of your website via the extensive options panel of **Eduline Pro**.

Please navigate to **Appearance => Customize** in your WordPress Dashboard to see the **Frontpage Ordering, General Settings, Header Settings, Frontpage Settings, Blog Settings, Footer Settings, Page Template Settings** etc panel within the WordPress customizer.
