3 –What is page and how to create it?

Pages are static and are not listed by date. Pages do not use tags or categories. An about page is the classic example. Pages can be displayed in the sidebar using the Pages widget, and some themes display pages in the navigation at the top of the site.

-To create page

- Go to dashboard
- Click in **Pages > Add New > Follow instructions as below**

The screenshot shows the WordPress dashboard with the 'Pages' menu item highlighted. A red box and arrow point to the '+' icon in the 'Add New' button. A red arrow points to the 'Add title' field in the page editor. The right sidebar shows the 'Status & Visibility' section with 'Public' and 'Immediately' selected, and the 'Page Attributes' section with 'Default template' and '(no parent)' selected.

- After adding all content, you can publish your page and create necessary pages by same method.

4 – What is category and how to create it?

Categories provide a helpful way to group related posts together, and to quickly tell readers what a post is about. Categories also make it easier for people to find your content. Categories are similar to, put broader than, tags.

How to create categories

- Go to dashboard
- Click in **Posts > Categories**

The screenshot shows the 'Categories' page in the WordPress dashboard. The 'Add New Category' form is visible with the following fields: Name (with a red box and arrow pointing to the placeholder text '[Name of your category for eg:-News]'), Slug (with a red box and arrow pointing to the placeholder text '[Slug is the name that appears in url]'), Parent Category (set to 'None'), and Description. A red arrow points to the 'Add New Category' button at the bottom with the text 'Click'. The right sidebar shows a table with one item: 'Uncategorized' with a count of 4.

- You can put your own slug too, most of the time it is left blank which means name of the category itself will be its slug.
- [For eg. yoursite.com/category/category_name]
- You can put description if you want.
- Now after adding category, your category will appear in right side of the post page.
- You can add more categories in same manner.

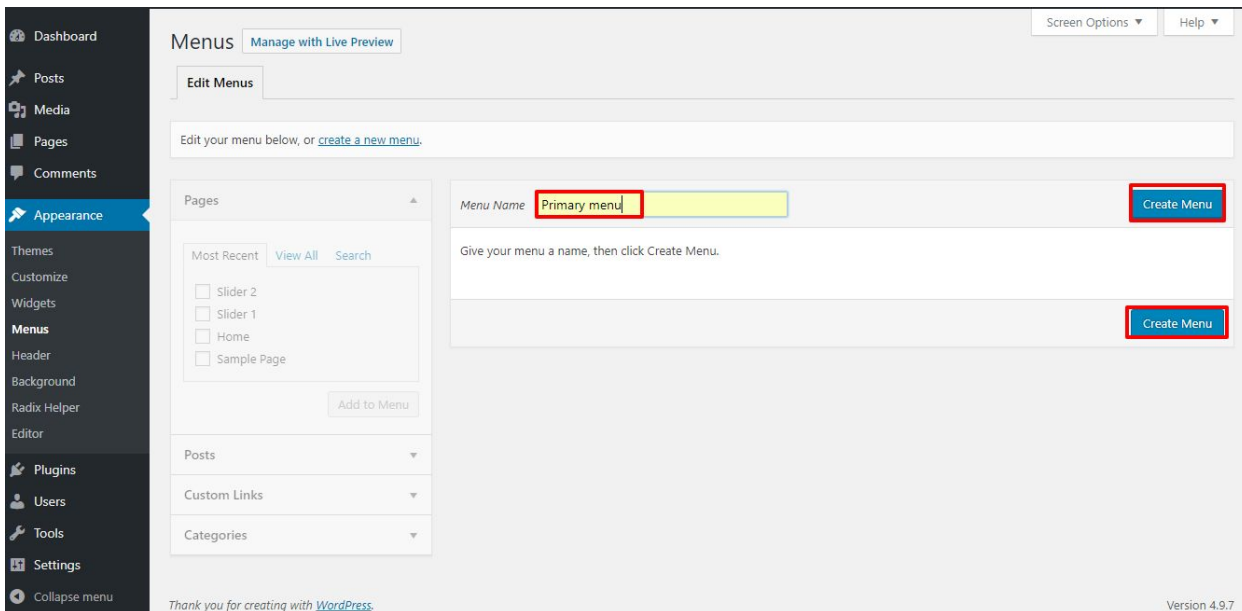

5 – How to create menus?

This theme comes with only one menu locations. **Primary**

You can create menus in **two ways**.

- **Appearance=>Customize=>Menu=>Create New Menu**
- **Appearance => Menu**(We **RECOMMENDED** this Option for creating menus.)

- Create **New Menu** [You need to create only one menu]
